FIRE AT KNOXVILLE.

Over a Million Dollars Worth of Property Destroyed.

A NUMBER OF LIVES WERE LOST.

The Exact Number Unknown as It Is Believed That Several Bodies Lie Buried in the Ruins of the Burned Buildings—A Number of People Badly Injured—Details of the Disaster.

KNOXVILLE, April 9.—Never in the history of Knoxville has the city suffered such a loss by fire as it did yesterday. The very heart of the city, including some of the largest wholesale and retail business houses in the south, were destroyed. The loss is variously estimated at from \$1,000,000 to \$1,500,000, with about 60 per cent of insurance. The entire block between Union and Reservoir streets, on Gay street, with the exception of the McGee building, and the longest and handsomest block in the city, is a mass of ruins.

The loss of life is very uncertain as the hotel register of the Hotel Knox, in which 56 people were sleeping, was burned. The proprietor of the hotel says that he had five or six guests who have not put in an appearance.

A. E. Weeks of Locke, N. Y., drummer for a Rochester stamping company, is known to have perished in the flames.

R. W. Hopkins, a St. Louis drummer, was last seen in the burning building in a suffocating condition.

A man named Robinson, from Pulaski, Tenn., is supposed to be another victim. He was registered in the hotel and has not shown up.

A large force of men are at work clearing away the debris and searching for the bodies.

A cabinetmaker named P. C. Dyer, fell dead on the street from fright.

W. H. Kephart, ex-secretary of the chamber of commerce, saved the life of John Bogle, an old farmer, by dragging him to a window and letting him out on the roof of another building. Kephart jumped one story and was injured.

When the firemen thought all the inmates of the hotel had escaped a woman with an infant in her arms rushed to the rear window and screamed for help. A net was quickly stretched and the woman asked to drop the child out, but as the smoke almost choked her she told them that if one had to die both would die. The woman was finally rescued by the firemen.

The list of dead and injured so far reported is as follows:

The dead are:

A. E. Weeks, Locke, N. Y.

R. W. Hopkins, St. Louis.

—Robinson, Pulaski, Tenn.

S. E. Williams, Springfield, Mass.

The injured are:

J. C. M. Bogle, Tennessee, burned; will die.

D. M. Dean, Indianapolis, ankle sprained.

Tom S. Peck, Morristown, Tenn., ankle cut and sprained.

Lieutenant Hood, Knoxville police, cut on face and head by glass from explosion.

Claude Harris, Knoxville, cut in dozen places.

Policeman Asquith, burned and cut by flying glass.

Policeman Duncan, badly burned and was carried home.

Fire Chief McIntosh, bruised from fall.

W. H. Kephart, Knoxville, internally hurt.

The fire was discovered about 4 o'clock in the wholesale grocery store of the McNulty Grocery company by a porter of the Hotel Knox, which adjoins the grocery. A general alarm was turned in and all the local fire companies were soon on the scene. Their efforts proved futile, however, and the flames spread rapidly, and soon the hotel was enveloped in flames.

From the hotel building, which is five stories, the fire spread east and west, and a stiff wind made the flames very ugly, and the fire department was inadequate.

In the wholesale hardware house of W. W. Woodruff & Company a large dynamite explosion occurred and scores of people were hurt by flying brick and glass.

It became necessary at last to have the walls of one building blown down by cannon to stop the mad career of the fire. A mountain Howitzer of the Knoxville Legion was called into play and a load of canister did the work, at the same time tearing up some residences in a different portion of the city.

The city authorities, realizing that the fire department was unable to conquer the flames, telegraphed to Chattanooga for assistance. An engine was placed aboard a flatcar and started the run of 111 miles, which was made by Engineer Robbins in 109 minutes, breaking the record. When the engine arrived here the fire was about under control, yet the Chattanooga boys did some work.

The losses and insurance are as follows:

McNulty Grocery company, loss \$15,000; insurance, \$6,000. McNulty building, loss \$45,000; insurance, \$27,000.

Hotel Knox, furniture and fixtures,

HAWAIIAN ADVICES.

That Island Still Looks Forward to Annexation to the United States.

SAN FRANCISCO, April 9.—The steamship Monowai arrived yesterday evening from Australia via Apia and Honolulu, with the following advices under date of April 1:

"President Dole gave out the information today that William A. Kinney, a local lawyer, had been instructed to go to Washington on the 7th inst. as an annexation commissioner. The mail on the 30th ult. brought this government some inside information on the annexation question, and it is expected that that important matter will be brought before the present session of congress. At present Attorney General Smith and A. S. Hartwell are in Washington in the interests of a closer political union. What they have accomplished this government only knows, and its officials decline to give out anything.

"The steamship Gaelic, which is to arrive on the 3d, will have on board the new Chinese embassy on their way to Washington.

"Her majesty's ship Wild Swan arrived on the 28th ult., 15 days from Victoria. The missionary steamer Morning Star arrived one day later, 43 days from the South Seas.

"There have been no new developments in the Japanese immigration trouble."

FREIGHT TRAIN BLOWN UP.

Disastrous Wreck on the Indianapolis Belt Line Railroad.

INDIANAPOLIS, April 9.—The middle section of a Peoria and Eastern freight train was blown to pieces on the Belt railroad switch, west of this city yesterday.

It is not known whether the train was first wrecked or whether the explosion caused the wreck.

Two carloads of whisky exploded, destroying two carloads of tobacco, one of lumber, two of eggs and one of the theatrical scenery. The promiscuous mass took fire and several cars were destroyed.

The force of the explosion threw the iron work many rods and piled up a mountain of freight.

The damage is estimated at \$25,000.

Otto Crockew, a tramp, was seriously burned in the explosion.

FILLING THE STRIKERS' PLACES.

The Illinois Steel Company Promises to Start Their Mills on Monday.

CHICAGO, April 9.—The Illinois Steel company is as fast as possible filling the places of the 90 rail straighteners who walked out of the steel mill, resulting in the throwing out of employment of 2,000 men. It is probable there will not be any outbreak of the men before Monday, if then. The company's officers say they will start the rail and steel mills then if they have to bring in workmen from the east to fill the places of the strikers. In that event trouble is threatened.

General Manager W. R. Walker says there is no reason for the strike and he has the assurance of President M. M. Garland of the Amalgamated association that the striking laborers are not receiving the support of that organization.

Soldiers Fit the Centennial.

COLUMBUS, O., April 9.—Adjutant General Axline has had application filed for a regiment to attend the exposition at Nashville. If he sends one he will send the First regiment of Cincinnati.

He says that Cincinnati is in close touch with the south, and that it must be the city that will represent the citizen-soldiery of the state.

THOUSANDS IN WANT

Condition of Affairs Along the Lower Mississippi.

TEN COUNTIES UNDER WATER.

The River Still Rising and Heavy Rains Have Fallen All Through the Mississippi Valley—Relief Committees Doing Splendid Work but Still Many Refugees Are Suffering For Food and Shelter.

GREENVILLE, Miss., April 9.—The condition of affairs in this section of the Mississippi river continues serious. Want is today at the door of many laborers. The Yazoo-Mississippi delta embraces 10 counties with a population of nearly 400,000 people, 70 per cent of whom are farm laborers who depend for their daily bread on rations issued weekly by the planters and local merchants, on part of the laborers' farming operations. The planter and merchant, in turn, secure advancements from money centers on their paper, based on the growing crops, after having carried the laborer until the crops have been planted. The inundation occasions a withholding of credit from the country, thus cutting its most vital cords. From this statement it will be readily seen that every day adds severity to the strain.

The promptness with which the federal government has interested itself in the condition of the inhabitants of the inundated districts has brought a strong ray of hope into a situation which is at best gloomy enough. It will be remembered the secretary of war has kept himself in telegraphic communication with the governor of Mississippi, seeking information concerning the needs of the flooded districts. Governor McLaurin, in turn, has kept in telegraphic communication with the representative men of the delta and on Wednesday he was first advised that assistance was needed. Later advices gave a more extended report of the prevailing condition, whereupon many of the leading planters and business men of this section (Washington county) held council and decided such a crisis was at hand as necessitated calling for assistance from the general government. To that end the following dispatch was sent to the governor, and by him sent to General Alger, secretary of war, and a similar message was transmitted to Congressman Catchings:

"Further investigation into the effect of the overflow and conference with the leading merchants and planters shows that this, Washington county, is practically entirely overflowed. The population of the county is about 50,000, with upward of 10,000 head of mules and horses, exclusive of cattle. Over 40,000 of these people subsist upon weekly rations, issued by planters and local merchants. The limited means of these are about exhausted and their credit destroyed by the overflow. Thirty days will probably elapse before it can be determined whether a crop can be made. If none can be made the destination will be incalculable. In the meantime we must appeal to the government for aid, during this period of waiting, in caring for these people and stock. Only actual necessities are desired, and such supplies can be disbursed without waste through the government force stationed at this point. We estimate it will require not less than \$135,000 worth of supplies for this purpose during the ensuing 30 days for this county, and we earnestly request your aid in securing it."

GLOOMY FOR FOOD SUFFERERS.

Heavy Rains Have Fallen All Through the Mississippi Valley.

MEMPHIS, April 9.—Telegrams received from the flood areas of the Mississippi delta report the situation unchanged. A heavy rain accompanied by a strong northwest wind has prevailed far the past 12 hours.

Information from the Flower lake crevasse says that the break is 1,700 feet wide. Every effort is being made to tie the ends of the levee. The town of Lulu is entirely shut out except by telegraph.

Yesterday was ration day for the destitute refugees at Rosedale, and a more poverty-stricken band of negroes than those gathered at the place of distribution would be hard to picture. Only those who were known to be actually in need were supplied. The news had become current among the negroes that the government had sent rations, and many who were yet able to take care of themselves were grievously disappointed at not finding their names on the relief roll.

At Helena the river has fallen 2 feet and 11 inches since the levee gave way on Sunday. The back water in the southern part of the city is at a stand. Many flood refugees are being taken to Helena, and the number in that city will now probably reach 3,500. The relief committee is doing good work and no complaints have been made.

The river is falling at all points between Cairo and Helena.

NEW ORLEANS STILL SAFE.

All the Levees in That Vicinity Are Holding Out Well.

NEW ORLEANS, April 9.—The river on the gauge stands at 17.7. This is a rise of .01 foot in the last 24 hours. During the past 24 hours New Orleans participated in what seems to have been a pretty general rain and thunderstorm. The levees on the river front are holding out well and up to this writing there is no justification for the entertainment of an opinion contrary to that

frequently expressed—that as a system the New Orleans levees are perhaps the finest in the territory affected by an overflow and easily able to stand any ordinary pressure.

The levees in Plaquemine parish, under the control of the La Fourche and Barabaz board, contain within their jurisdiction perhaps the weakest spots, but even there it is denied that there is any conspicuous feature to give rise to alarm. The entire river front is being splendidly guarded.

Information from the levees in the Fifth Louisiana district report everything holding well.

Rapid Rise of the Sunflower River.

CLARKSDALE, Miss., April 9.—Since 8 o'clock last night the Sunflower river has risen seven and one-half feet and is now 20 inches from the top of the bank in front of this city and in the roads in low places along its banks. The stream is still rising rapidly. There is a protection levee from four to six feet high around the town and no water will get in, unless some new crevasse occurs in the Mississippi, or the Flower Lake crevasse widens considerably. An unusually heavy rain fell yesterday and little work was done locally.

Cumberland River Rising.

NASHVILLE, April 9.—The Cumberland river has reached 41.15 feet on the government gauge and is rising slowly. It is not believed 42 feet will be passed. Forty feet is danger line. It is raining here.

NOTHING BUT TALK.

The Entire Time of the Senate Taken Up in Speeches.

WASHINGTON, April 9.—The senate yesterday heard Mr. Morgan of Alabama for the third successive day on his resolution declaring that a state of war exists in Cuba. He was severely critical of Spain's methods against American prisoners, and went over in detail the circumstances in the Competitor case. Mr. Morgan said he would close his speech at the next meeting of the senate, when he would present a letter from one of the Cuban officials of the eastern province of the island, showing the complete civil system of government now maintained by the Cubans.

The resolution of Mr. Earle (Dem., S. C.) for the reorganization of senate committees went over. Mr. Chandler presenting an amendment to be argued when the resolution is taken up. The amendment provides that on Tuesday, April 20, at 2 p. m., the senate will proceed to appoint its committees.

Mr. Nelson of Minnesota spoke for two hours on the bankruptcy bill, opposing the pending Torrey bill as excessively harsh and designed as a collection agency for large creditors and urging his substitute as a measure drafted in the interest of thousands of poor debtors struggling to get on their feet.

Mr. Hoar defended the Torrey bill against Mr. Nelson's charges of harshness. He said 500,000 debtors were awaiting the relief of this humane bill. The Nelson substitute Mr. Hoar regarded as impracticable.

Mr. Lindsay of Kentucky gave notice of a speech at the next session in answer to criticisms of the committee bill.

Mr. Thurston (Rep., Neb.) gave notice that on next Tuesday he would address the senate on the subject of the Pacific railroad debt settlements.

At 4:45 the senate adjourned until Monday.

PIAZZA FELL.

Hon. W. J. Bryan Meets With an Accident at St. Augustine, Florida.

ST. AUGUSTINE, Fla., April 9.—Hon. William J. Bryan arrived here at 4:50 p. m. and was greeted at the station by several hundred people. At 8:30 he addressed fully 3,000 persons from the piazza of the San Marco hotel. At the close of his speech hundreds of people flocked about him, and so great was the strain that one section of the piazza, 40 feet square, fell through.

Nearly 400 men and women were precipitated about 20 feet to the ground and many of them injured, but none fatally. Mr. Bryan was picked up unconscious, and removed to a physician's office, where an examination revealed that he had received no injuries of a serious character. It was deemed best, however, to abandon the reception which was to have been given him later in the evening.

UNABLE TO PROCURE BAIL.

A Cincinnati Man Locked Up For Procuring Fraudulent Registration.

CINCINNATI, April 9.—Mariano Cancelliere, charged by the Democratic campaign committee with procuring the fraudulent registration of Agostino Dattilo, was unable to renew his \$5,000 bond before Squire Blistian of Riverside, and was locked up in default at the Hamilton county jail.

His preliminary trial had been set for Wednesday evening, but Cancelliere claimed that he wanted to bring a witness from New York to prove that Dattilo was in this country seven years ago, and the case was continued to April 13.

The prosecution has a passport, which, it claims, shows that Dattilo left Italy only two years ago, while five years' residence is necessary to become naturalized.

Terrific Storm in Arkansas.

DUMAS, Ark., April 9.—A terrific storm passed over this village at 1 o'clock yesterday and was followed by a deluge of rain and hail. Much damage was done, huge trees being lifted bodily by the roots. A store belonging to Gus Waterman was leveled to the ground; residence of E. R. Willeford destroyed, and other damage done.

ATTACK ON KISSAMO

The Cretans Contemplate Such a Move.

GUNS MOUNTED IN POSITION.

The Cretans Have Warned the Foreign Admirals That Any Attempt to Interfere With Their Designs Would Be Forcefully Resisted—Eastern Question Believed to Be Approaching a Climax.

CANEA, April 9.—The Cretans are now massing around Kissamo. They have mounted four guns and intend to attack the fort, which is held by 150 Turks. Yesterday they wrote to the captain of the Austrian warship anchored in the bay, declaring that as the action of the international fleet had hitherto been hostile to them, they would repel forcibly any attempt of the warships to interfere with their designs at Kissamo. It is expected, therefore, that the Cretans will direct their guns upon the warships if the latter open fire.

The Austrian admiral will proceed to Kissamo at once. It has been decided to remove the few Mohammedan families still there and to blow up the two blockhouses in the vicinity of the fort in order to prevent the Cretans from occupying them.

The foreign admirals have sent a warship to Kissamo, with instructions to assist the Turks in evacuating that place the latter having declared it to be impossible to resist the insurgents.

The admirals of the foreign fleets held a meeting yesterday at Suda. The question discussed was whether the consuls should renew parleying with the insurgent leaders. It was decided not to do so. The consuls pointed out that further parley was useless because they were unable to give them definite information relative to the withdrawal of the Turkish troops or furnish the insurgent leaders with details regarding the autonomous form of government which the powers proposed to confer on Crete.

The fire which broke out near the cathedral in Candia destroyed the residence of the bishop. The Greek quarter was saved by the Italian marines, who demolished a number of buildings in order to check the progress of the conflagration. It is estimated that the damage from the conflagration will reach \$30,000.

The barracks occupied by the Italian marines doing duty on the shore at Candia have been burned to the ground. The cause of the fire is not known.

A detachment of 600 additional Russian troops and an additional detachment of 700 British troops have arrived here.

Turks Anxious to Fight.

ELASSONA, April 9.—The troops are very much disappointed at the fact that the Greeks have not attacked them, and the conversation of the soldiers and subaltern officers shows their temper to be such that in the event of an outbreak of hostilities and the repulse of the Greeks, no Turkish general dare act otherwise than invade Greece.

Reinforcing Turkish Troops at Salonica.

CONSTANTINOPLE, April 9.—An extraordinary council of ministers of the empire was held at the palace yesterday. It is understood that as a result of it the Turkish government will reinforce the troops at Salonica with 32 battalions of Redifs from Anatolia, making a total of 33,000.

Germany and Austria Hold Back.

PARIS, April 9.—A dispatch from Constantinople to The Temps says that the proposal to leave the choice of a governor of the island of Crete to the proposed Cretan assembly has been accepted by four of the powers; but, it is added, Germany and Austria still oppose the proposition.

GENERAL RIVERA STILL LIVES.

He Is Recovering From His Wounds According to Havana Dispatches.

HAVANA, April 9.—General Ruis Rivera still remains at San Cristobal. He is in no serious condition and his wounds are not likely to prove fatal. In the event of a summary trial it is not likely that he will be sentenced, but he will be held as a prisoner of war.

While the Aragon battalion was reconnoitering to the north of the railroad between San Cristobal and the San Juan river they encountered a body of insurgents who had descended the hills for vegetables. According to the official account the Spaniards "pursued them into thickets, killing seven and making seven prisoners."

Advices from Pinar del Rio say that the insurgent Colonel Jose Amieva Fuentes has surrendered to the Spanish commander at that place.

Offered the Turkish Ministry.

ANN ARBOR, Mich., April 9.—The ministryship to Turkey has been tendered to President Angell of the University of Michigan. He has not accepted. Those nearest to him say that there is no doubt that he will accept. Dr. Angell is a high authority on international law. He has served as minister to China and as chairman of the deep waterways commission.

Christian Convention.

DETROIT, April 9.—Many young women prominent in various lines of Christian educational work are among the 200 odd delegates to the sixth biennial convention of the International Association of Young Women's Christian Association of the United States and Canada, which is being held in the Woodward Avenue Baptist church here.

INDICATIONS—Rain, with northeasterly winds, shifting to westerly.

When such Republican strongholds as Cincinnati, Portsmouth, Columbus, Akron, Springfield, Canton, Chillicothe, Zanesville, Circleville, Gallipolis and a number of others change their allegiance from the Republican to the Democratic party, Democrats have a right to rejoice. Besides capturing these cities they have made large and substantial gains throughout the State. The Republicans throughout the State, made the fight on national politics and must accept the result as such—Ironton Irontonian.

Considerable of a landslide, wasn't it? It will teach the Republicans that they haven't the country nailed down yet, and that there are just a few Democrats left in the land.

DINGLEY RECIPROCITY.

In reviewing the reciprocity provisions of the Dingley bill in a letter to the New York Herald, Hon William L. Wilson says there is in the whole list of articles on which the President may make the prescribed concessions no promise of substantial or general benefit to our consumers, and not much more to hope for in opening favored markets for our exports.

Mr. Wilson declares that retaliation, not reciprocity, is proposed. He says: "The President is authorized to impose duties on three important articles now and for many years on the free list—viz.: coffee, 3 cents a pound; tea, 10 cents a pound; hides, 1½ cents a pound—when such articles or any of them come to us from countries which in his judgment, in view of such free import impose duties on our produce reciprocally unequal and unreasonable. This is a repetition of the so-called reciprocity clause of the McKinley bill as to certain of its articles which proved so ridiculous a fiasco and stirred the resentment of some of our southern neighbors.

"It is a retaliation, not reciprocity. It tries to force open markets by a threat, not by a concession, and in its operation is really retaliation upon our own people. It says to the several countries from which we import coffee, tea and hides: 'If you, under fiscal necessity or erroneous economic ideas—such as protection to home industries—impose duties on our wheat and flour, provisions and other products which seem unjust and unreasonable to our President, we will impose duties on your tea, coffee and hides.' Or, in other words: 'If you whether compelled or mistakenly following our policy, make bread and other articles higher to your people, we will make tea, coffee and hides higher to our people.'

"Under like provisions in the law of 1890 there arose not only ill feeling, but much diplomatic correspondence, in which it was claimed, with apparent justice, that such discriminations were in violation of our long standing treaty obligations, and it was pointed out that some of those treaties were identical with the treaty of 1815 between the United States and Great Britain, under which we claimed and collected from the latter an indemnity of \$87,000 for discriminating duties imposed on American rice in violation of the treaty."

THE Aberdeen Gretna says: "Captain Wm. Riggs struck a government plum this week. He was notified of a bounty claim being allowed him, amounting to about \$200."

THE gross receipts of the Portsmouth postoffice from April 1st, 1896, to March 31st, 1897, were \$20,700.69. The receipts from April 1st, 1895, to March 31st, 1896, were \$23,081.93, showing a decrease in receipts for the past year of \$2,381.24.

FIFTY-TWO young men will graduate from the various departments of Centre College this year, the largest class in the history of the school. Among the number are Mr. Alexander Gordon Sulser, of this city, and Mr. Spencer Best, of Millersburg. Mr. Arthur C. Van Winkle graduates from the law department.

SPEAKING of Mr. C. D. Wells, candidate for School Superintendent, the Dover News says: "Mr. Wells has taught public school in the county for a number of years and has proven himself to be a very efficient and popular young teacher. He is an unswerving Democrat, devoted to his party. He is thoroughly capable of attending to the duties of the office should his party honor him with it."

THE Indianapolis Journal says George W. Stevens, General Manager of the Chesapeake and Ohio, is to sever his connection with the C. and O., to take service with the Wabash as Vice President and General Manager. It was further stated that Superintendent Boughton, of the C. and O., would go with Mr. Stevens to the Wabash. The C. and O. people do not believe there is the least foundation for the statement. Mr. Stevens left the Wabash some years ago to take service with the C. and O.

BRACKEN County's old court house is proving an expensive structure. It was condemned a few years ago, and a tax levied to build a new one, but the Sheriff was enjoined and the case is still in the Court of Appeals. The Augusta Chronicle sums up the case as follows: "Leaving the court house two years ago has cost the people of Bracken many hundred dollars, besides the inconvenience and worry. First, 25 cents tax from those paying; next, \$371 for a picture of the Carlisle court house; next, \$900 to \$1,000 for the rent of the church and other rents, then the lawyers fees of at least \$1,500 or more."

THE Kentucky Baptist Young People's Union was organized at Louisville this week with the following officers: President, Prof. Arthur Yager, Georgetown College; Recording Secretary, Rev. J. S. Sowers, Faywood; Corresponding Secretary and Treasurer, W. M. Acuff, Louisville. Rev. M. B. Adams, of Lewisburg, was present and responded to the address of welcome. The Courier-Journal says: "He reviewed the three great religious revivals since the Reformation. The first had been for orthodoxy; the second for practical, working Christianity; the third for individual soul-winners. It was this last spirit which actuated the formation of such organizations as the Baptist Young People's Union."

THIEVES are making raids almost nightly at Paris. The Kentuckian says: "Friday night the residence of Nath Rearden was robbed of \$70.75 in money. Mr. R. shot at the burglar as he was going out the window. Sunday night the store of Newt, Mitchell was robbed of some whisky and a small amount of money. Same night 250 pounds of flour was taken from the grocery of Lavin & Connell. A few nights ago J. M. Hall had nine hogs stolen from his farm. At M. A. Kenney's two saddles belonging to J. W. Ferguson and Clarence Kenney were stolen, but returned with the skirts cut off. Bob Prather stole a horse from John Johnson and a saddle from J. R. Rogers, but was captured and is now in jail."

The following language used by John D. Rockefeller, the head of the Standard Oil Company, goes to show how little real value in life is the accumulating of vast wealth: "Who is the poorest man in the world to-day? The poorest man I know is the man who has nothing but money—nothing else in the world but money—only money." Wealth can add very much to our comforts and is desirable for that purpose, but it seems to be the experience of rich men that their greatest pleasure was in making the money rather than in using it. Said Mr. Rockefeller: "My head is full of sadness as I contemplate the condition of a number of young fellows that I know in this city. Their fathers have plenty of money, but the boys have not the ghost of a chance in competing with you who came from the country. They'll go down and you'll take their places."

D. HUNT & SON.

TROUBLE BREWING

Between Dr. Godfrey Hunter and Lieutenant Governor Worthington Over That Ruling.

FRANKFORT, KY., April 7.—The friends of Lieutenant Gov. Worthington and Dr. Hunter are earnestly seeking to disguise the seriousness of the developments which are likely to result from the strained relations between the two gentlemen. Matters came to a head yesterday when Gov. Worthington purposely overlooked the chance to send Dr. Hunter to the Senate by a simple parliamentary ruling. Some rumors concerning the State of Dr. Hunter's feelings were in circulation last night, but nothing indicating the true seriousness of the matter was said. It is now known that Dr. Hunter used harsh language toward Mr. Worthington. Dr. Hunter will unquestionably hear from him.

From Jail To the Altar.
MANCHESTER, OHIO, April 7.—The wedding of Miss Mamie Lawwill and Mr. D. A. Kennon occurred to-night at the home of the bride. Mr. Kennon recently served a ninety days' sentence in the West Union jail, having been arrested on a paternity charge brought by Miss Emma Slagle. He protested his innocence, and, rather than pay the fine of \$200, which he was perfectly able to do, he stood the sentence and devoted his time while in jail to studying law. Miss Lawwill is one of Manchester's prettiest and most respected young ladies, and is the daughter of Mr. and Mrs. Albert Lawwill.

Something to Know.
It may be worth something to know that the very best medicine for restoring the tired-out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centers in the stomach, gently stimulates the liver and kidneys and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c. or \$1 per bottle at J. J. Wood's drug store.

If the Commissioners haven't the authority to make the purchase, then they are authorized to lease that portion in this county, the road to be then operated as a free turnpike. If the purchase is made then the Commissioners are authorized to borrow what money may be needed to make the payment of \$5,500. The resolution was adopted. PUGH'S POSTOFFICE PLAN.
It Is Tried at Louisa and the Result is Very Unsatisfactory.

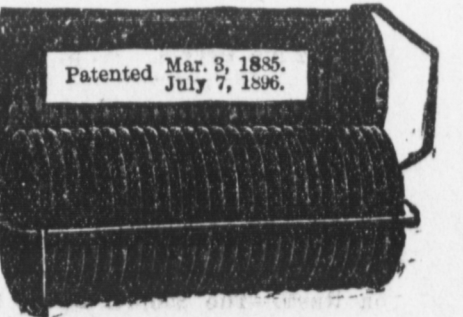

LOUISA, Ky., April 6th.—Congressman Pugh's plan for selecting postmasters for Lawrence County was tried to-day and the result is the most unsatisfactory to both the party and the public ever known here. The plan provided for the Republican Executive and Central Committees and the Republican office-holders of the county to meet at the court house and select postmasters for all offices in the county. The committee met behind closed doors with only the various applicants present and decided to act. All the applicants for the Louisa office, the most important one of the county, refused to present their names except one L. T. McClure. L. M. Atkins, a prominent party worker and well-to-do citizen, was very indignant, and told the committee so in a red-hot speech. He is a brother-in-law of Maj. D. J. Burchett. Albert Copley, another strong leader, followed suit and then the other candidates withdrew from the room. McClure was declared the choice of the committee. There is much dissatisfaction, and to-night there is talk of a protest being sent up against McClure's appointment. It is charged that there was a put-up job in the matter and the discovery of evidence of this fact caused the action taken by the other candidates.

THE Fiscal Court of Jessamine County has adopted standard time for the court house clock.

Sure Winner.

Gen'l Charles Phister, applicant for postmaster of this city, says he is a winner. He has a number of good letters, recommending him, from prominent citizens, and to use his own expression he is not compelled to seek signers to his petition—the good people come to him. If party fealty counts for anything the General is certainly entitled to a share of the pie. He is no kicker and has never opposed or scratched the nominee of his party. He has voted the Republican ticket ever since the organization of the party, and when his papers are in shape they will command a respectful hearing from the proper persons.

CONGRESSMAN HOLMAN ILL.

The "Watchdog of the Treasury" in a Very Serious Condition.

WASHINGTON, April 8.—Congressman William S. Holman, Indiana's great "objector" and "watchdog of the treasury," is lying in a serious condition at his home, 2125 R street, as the result of an accident. Owing to his extreme age and his enfeebled condition during the past year it is feared he may not recover. Last Tuesday Holman fell on alighting from a Connecticut avenue street car near his residence and was taken home and placed in bed. He began to grow worse and part of the time he has been unconscious.

Holman's wife died about a year ago. During their long married life together the couple frequently chatted pleasantly about which would survive the other. On her deathbed Mrs. Holman said to her husband: "Something tells me that we will reach the bottom of life's hill almost together." Two minutes later she was dead. Judge Holman said recently to a friend: "Since that time I, too, have been dead to all intents and purposes."

Last fall Holman's friends about Aurora, Ind., induced him to enter the campaign, hoping it would divert his mind from his wife's death. It did to some extent, but since his return to congress he has again become depressed.

He will be 75 years old next September, and has been elected to congress 16 times. He is now entering on his 31st year in the house, and has served longer than any member of congress. His enfeebled condition has been the subject of comment by members of the house since the present congress assembled.

CURRENCY REFORM.

Boards of Trade and Other Commercial Bodies Asked to Act at Once.

INDIANAPOLIS, April 9.—The executive committee of the Indianapolis monetary reform convention has asked further aid of the commercial organizations of the country. Blank copies of a petition are being sent out from this city to the secretaries of boards of trade and other commercial organizations and also to all who attend the convention as delegates. The petition is addressed to the senators and representatives and urges the necessity of reform in the national currency and banking legislation. A letter accompanying this petition is signed by H. H. Hanna, chairman. This letter says:

"The members of the senate and house of representatives need proof of public demand for legislation upon the lines the Indianapolis monetary convention instructed the executive committee to urge. To secure to the president at this extra session, authority to appoint a commission, a hard, quick push must be put into the work. If the action is not taken at present extra session, the important opportunity will be lost."

Chairman Hanna requests that within three days after the receipt of the letter, 100 signatures to each petition, address and forward one to each senator from the district and that the other be forwarded to the representative in congress from the same district.

BOUND, GAGGED AND ROBBED.

An Aged Couple Brutally Treated by Three Masked Robbers.

SANDUSKY, O., April 9.—Three masked men entered early yesterday morning the residence of Mr. and Mrs. James Ford an aged couple living at Parkertown, near this city, and after binding and gagging them attempted, at the point of revolvers, to make them reveal the hiding place of their money. They would not do so and after a long search the robbers found \$100 in money and other valuables.

Some time afterward Mrs. Ford worked loose the bindings and released her husband. He notified the neighbors of the outrage and a posse was formed. Mr. and Mrs. Ford are in a critical condition from the rough handling.
